## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to an interior weld, classified in class 219.
- II. Claims 16-26, drawn to a sling for attachment to foldable chair, classified in class 2971, subclass 452.56, 452.63, and 452.64.
- III. Claims 27-36, drawn to a tightening mechanism, classified in class 242.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions welding can be used in connecting any two metal structures together in a variety of environments, not just chairs. And tightening mechanisms, such as the one disclosed can be used to tighten a large number of items. The inventions are not related at all, especially since claims 27-36 concentrate on the structure of the tightening mechanism.

Art Unit: 3636

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II nor III and vice versa, restriction for examination purposes as indicated is proper.

A telephone call was made to Thomas A. O'Rourke (#27,665) on March 1, 2005, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney B. White whose telephone number is (703) 308-2276.
